MANAS KUMAR

Full Stack Web Developer

+91-6287905198 | manaskumar20056@gmail.com | linkedin.com/in/manas-kumar-512523326 | Bhopal, India

SUMMARY

B.Tech Computer Science student at IIIT Bhopal (CGPA 8.36) who has built 3 projects with Django, FastAPI, React and PostgreSQL, including RAG and PyTorch work with LangChain and Qdrant. Codeforces Specialist (max rating 1434) with 1000+ problems solved.

EXPERIENCE

Web Development Lead Jan 2026 – Present
Spark – College Technical Club

- Lead the web team of the college technical club and build its frontend in React
- Build responsive pages from shared React components for club websites and events
- Work with teammates on features, code merges and deployment

PROJECTS

Next Hire | Resume Analyzer & AI Interview Platform 2026
Frontend | Backend

- **What:** Recruitment platform that analyzes resumes, matches them to jobs, generates interview questions and creates resume PDFs
- **How:** Built REST APIs in DRF with JWT login and separate recruiter access; compared resume and job description embeddings to tailor interview questions to each candidate; used LangChain with the Gemini API for resume analysis and question generation; stored questions in PostgreSQL
- **Tech Stack:** Django, DRF, React, PostgreSQL, LangChain, Gemini API, JWT

CodeLens | Chat with a GitHub Repo, Answers Cited to Lines 2026
Frontend | Backend

- **What:** RAG code assistant that answers questions about a GitHub repo and cites each answer as file and line range; four pinned demo repos plus guarded indexing of public repos
- **How:** Hybrid retrieval in Qdrant (Gemini dense embeddings + BM25 sparse vectors) over line-mapped chunks; prompt chain of query rewrite, retrieval, cited answer and a code check that every citation exists in the retrieved chunks; ingestion guarded by a GitHub size check, single-ingest lock and least-recently-queried pruning; deployed on Vercel and Render with Neon Postgres
- **Tech Stack:** FastAPI, React, Qdrant, PostgreSQL, LangChain, Gemini API, Vercel, Render

VartaRaksha | Real-Time Voice Deepfake Detection 2025
github.com/Manas572/VartaRaksha

- **What:** VartaRaksha, a Python SDK for AI voice detection, speech context analysis, speaker recognition, and risk pattern detection
- **How:** Identifies synthetic voices, analyzes speech for suspicious scam indicators like OTP requests or urgency, and performs speaker recognition via voice similarity matching
- **Tech Stack:** Python, Machine Learning, PyPI,Fastapi,React

COURSEWORK

Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

EDUCATION

B.Tech, Computer Science & Engineering
IIIT Bhopal
CGPA: **8.36**
Graduation: **2028**

Class XII **93.2%**

Class X **93.6%**

SKILLS

Languages
C++, C, Python, JavaScript, SQL

Frontend
React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend
Django, DRF, FastAPI, Node.js

ML & AI
Machine Learning, Deep Learning, PyTorch, LangChain, NumPy, Pandas

Databases
PostgreSQL, MySQL, Qdrant, Redis, pgvector

Tools & Deployment
Git, GitHub, Postman, Axios, JWT, Docker, Vercel, Render

ACHIEVEMENTS

- Reached a max rating of **1795** on LeetCode, **1607** on CodeChef and **1434** on Codeforces (Specialist)
- Solved **1000+** problems in C++ on LeetCode, CodeChef and Codeforces, using DP, graphs, sliding window and PBDS
